Melbourne, VIC | Expected completion Sep 2027

Relevant coursework: Data Processing and Visualisation, Economic and Business Forecasting, Advanced Data Analysis, Quantitative Analysis of Finance, Econometrics and Optimisation

The University of Melbourne — Bachelor of Commerce

Jul 2022 – Jul 2025

Double Major in Finance and Economics | Melbourne, VIC

Awards: Melbourne International Undergraduate Scholarship; Melbourne Chancellor's Scholarship; Faculty of Business and Economics Graduate Pathway Scholarship

EXPERIENCE

Shanxi Securities Co., Ltd. — Equity Research Intern, Telecommunications

Nov 2024 – Mar 2025

Shanghai, China

- Collected, cleaned and structured listed-company financial and industry data to support sector research and company fundamental analysis.
- Conducted comparable-company valuation using P/E and P/B multiples to assess sector valuations and relative company value.
- Monitored telecommunications trends and market developments, synthesising key findings into investment briefs for research and investment decision-making.

China Galaxy Securities Co., Ltd. — Research Assistant Intern

Dec 2023 – Mar 2024

Changchun, China

- Tracked the SSE Composite, CSI 300, ChiNext, S&P 500, Nikkei 225 and DAX using Wind and Excel, producing weekly market updates.
- Researched macro policy, industry news and active A-share themes including AI and semiconductors, contributing to published weekly industry commentary.
- Supported an in-depth report on State Grid Yingda through financial and industry data extraction, chart preparation and database maintenance.

Industrial and Commercial Bank of China — Banking Operations Intern

Jan 2022 – Apr 2023

Changchun, China

- Supported 50+ customers with enquiries and routine transactions while following banking procedures and compliance requirements.
- Assisted with 30+ personal and small-business loan applications by organising documents and conducting preliminary credit and repayment-capacity reviews.
- Supported client communication and product promotion contributing to approximately RMB 8 million in wealth-management product sales.

PROJECTS & LEADERSHIP

J.P. Morgan Investment Banking Job Simulation (Forage)

Jun 2024 – Jul 2024

- Completed practical investment-banking tasks in a J.P. Morgan job simulation delivered through Forage; this was a virtual experience rather than employment.
- Screened acquisition targets for Worldwide Brewing Co. against strategic and financial criteria, assessing operating performance and transaction feasibility.
- Built a DCF valuation and sensitivity analysis, updating revenue and gross-margin assumptions for supply-chain disruption and competing bids.
- Prepared investment materials covering ownership, key financials and indicative valuation to support transaction and bidding decisions.

UniMelb StartUp 2023 — Team Leader

Feb 2023 – May 2023

Melbourne, VIC

- Analysed profitability, liquidity, operating efficiency and growth against industry benchmarks to identify key financial drivers.
- Led business-model development, market positioning, marketing strategy and financial planning; the project received an innovation award.
